☆. New version of ezTour\_h9 version, pls. download the file with this link ~  
<http://market.holux.com/Software/SU/>

V1.01 Note :

1. After using ezUpdate to update FW V1.01, please do " Reset All" in Odometer of system.

V1.00 Note :

1. **GPSport245 new FW v1.00** must collocate with new ezTour\_h9 version, then all of newly additional functions can be used.
2. ezTour setup file will display the name is **ezTour v1.00.h9**, but the ver. information of ezTour program will display (HOLUX\_ezTour\_Logger\_installer20081204\_v1.00.h8)
3. When you are going to install the new program of ezTour h9, if you had installed the driver for M-241 or GPSport 245 before, pls. do not install the new version driver V5.3 of this ezTour setup package. To avoid the laptop can't recognize the correct driver version.
4. When you start updating GPSport 245 FW\_V1.00 in the process, pls. keep attention don't move out the USB cable, else the device couldn't power on or operation any more.
